

# Reflection Sheet

Name: .....

Percentage in the test: .....

I know  
this.I need to  
revise this.Question  
in the  
test:Correct  
in the  
test?

|                                                                                                                                  |  |  |         |  |
|----------------------------------------------------------------------------------------------------------------------------------|--|--|---------|--|
| I know how to <b>order positive and negative numbers from least to greatest</b> .                                                |  |  | 2, 7    |  |
| I know when to write the symbols <b>&lt; or &gt;</b> between a pair of numbers, e.g. $5 > -8$ .                                  |  |  | 3       |  |
| I can <b>add negative numbers</b> , e.g. $3 + -9$ .                                                                              |  |  | 4       |  |
| I can <b>subtract negative numbers</b> , e.g. $4 - -7$ .                                                                         |  |  | 4       |  |
| I can <b>multiply and divide by directed numbers</b> , e.g. $4 \times -5$ , $-20 \div -10$ .                                     |  |  | 4       |  |
| I can <b>add, subtract and multiply using decimals</b> , e.g. $37.24 + 42.41$ , $14 - 4.21$ , $45.65 \times 6$ .                 |  |  | 5, 6, 8 |  |
| I can <b>divide a decimal by a whole number less than 10</b> , e.g. $75.6 \div 9$ .                                              |  |  | 6       |  |
| I can <b>change a percentage into a decimal</b> .                                                                                |  |  | 9       |  |
| I can <b>change a decimal into a percentage</b> .                                                                                |  |  | 10      |  |
| I can <b>round off a number to a specified number of decimal places</b> .                                                        |  |  | 1       |  |
| Given parallel lines, I can recognise and use <b>corresponding angles</b> , <b>alternate angles</b> and <b>internal angles</b> . |  |  | 11      |  |
| I can <b>rotate a shape around a specified point</b> .                                                                           |  |  | 12, 13  |  |
