

Name: .....

Percentage in the test: .....

	I know this. 	I need to revise this. 	Question in the test:	Correct in the test?
I know how to calculate the <b>median</b> of a data set.			1	
I know how to calculate the median of data given in the form of a <b>table</b> .			2	
I know how to <b>compare two distributions</b> using the median.			1	
I know how to calculate the <b>median class (or the estimate of the median)</b> for grouped data.			9	
I know how to calculate the <b>interquartile range</b> of a data set.			3	
I know how to complete a <b>cumulative frequency table</b> for <b>different types of data</b> .			10	
I know how to draw a <b>cumulative frequency diagram</b> .			10	
I know how to <b>estimate the median or the interquartile range</b> using a cumulative frequency diagram.			10	
I know how to <b>interpret</b> a cumulative frequency diagram.			10	
I know how to draw a <b>scatter diagram</b> .			8	
I know how to recognise the different <b>types of correlation</b> in a scatter diagram.			8	
I know how to draw a <b>line of best fit</b> on a scatter diagram, either by <b>eye</b> or by using the <b>mean point</b> .			8	
I know how to <b>interpret</b> a scatter diagram.			8	
I know how to write the <b>probability of an event as a fraction</b> .			4, 5, 6	
I know how to answer questions involving probability that use a <b>standard deck of playing cards</b> .			6	
I know how to calculate the probability that an event will <b>not happen</b> .			6	
I know how to draw a <b>sample space diagram</b> for <b>combined events</b> .			7	
In a question on probability, I know how to calculate the <b>expected frequency</b> .			7
